

WASHED in BLACK™

a tribute to pearl jam

The definitive Pearl Jam Tribute takes you back 25 summers to the sound and vibe that helped to define a new generation of music, which still thrives to this day.

Playing to full clubs and venues since inception the reception to this project has been nothing short of amazing. Some of our shows include capacity crowds at the legendary High Dive - Seattle, WA; The Crocodile - Seattle, WA; Badlander - Missoula, MT; Flights - Everett, WA; Billy Blues - Vancouver, WA; 3rd Wheel - Lewiston, ID; the NW Region Casino circuit including 7 Cedars, The Point, Tulalip Resort, and the following festivals: The Bite Of Seattle, Taste of Tacoma, Harefest, and Evel Kneivel Days in Butte, MT.

Our members come from an extensive background of performing in small and large venues and various media formats with over 100 years combined experience, including extensive touring and even DJing at KZOK, one of Seattle's two major rock stations.

Through our tribute in both full concert, and unplugged formats, we aim to capture the sound, spirit, and vibe that helped to define a bold new era in rock sharing that

with our audience and fans. We take a team approach to all of our bookings including targeted promotions; our ability to work with Owners, Talent Buyers, Venue Staff, Stage Managers and Sound Engineers helps to insure the show will go off smoothly contributing to its ultimate success for all parties.

"We truly appreciate the effort put forth by you and the guys. Your promotion was as good as we've ever received from anyone playing our place and we are grateful for everything you brought to the table. We will definitely have you guys back."
